

EXPLORE THE POSSIBILITIES

Now that you have identified the problem you would like to help solve, the next step is to generate lots of ideas on **HOW** this problem could be solved in your community. At this point, do not limit yourself and do not judge your ideas.

Be bold, be creative and generate as many ideas as possible. Sometimes the craziest ideas spark the actions that will have the greatest impact.

PROBLEM

IDEAS FOR POSSIBLE SOLUTIONS

(put one idea in each circle, try to fill as many circles as you can)

The worksheet is designed for brainstorming solutions. At the top center is a rectangular box with the word "PROBLEM" written in red, bold, capital letters. Below this box, the text "IDEAS FOR POSSIBLE SOLUTIONS" is written in bold, black, capital letters, followed by the instruction "(put one idea in each circle, try to fill as many circles as you can)" in a smaller, regular font. Surrounding the central box and text are ten empty, horizontally-oriented ovals, each intended for a student to write a solution idea.
